

I have noticed lately that on some large monitors stj.lutheran.com doesn't display correctly.

It appears to be only when using Internet Explorer 9.

I have found that the free and safe web browser "Mozilla Firefox" displays all web sites correctly. It uses all your current favorites and bookmarks.

If you are using Internet Explorer and our site looks strange to you, give Firefox a try.

You can download it here --><http://www.mozilla.org/en-US/firefox/new/>

See our web site the way it was meant to be seen.

Thanks and happy surfing,

Your Webmaster, Steve
